

Dear Mr. President and members of the Executive Committee:

In keeping with the [Name of Council's] goal of planning for the future of our union, the group currently referred to as "Next Wave" would like to request formal status as a Committee for the following reasons:

- To promote activism among young members
- To create enthusiasm for Organized Labor in young members
- To provide support for young members in the unique issues that they face
- To create opportunities for young members to learn about the rich history of the Labor Movement
- To connect young member with the political system upon which they can have influence
- To create leadership training opportunities for young members
- To provide young members with experiences at the Council level that will prepare them for service on the Executive Board and Executive Committee

Toward these ends, we would also like to request a line item in the Council 75 budget.

I am pleased to present this letter on behalf of all of the young members of AFSCME Council 75 who look forward with excitement to the possibilities before them.

Respectfully submitted,

Name of Member
